

Engolden Africa
Happiness by Design
Sustainable Upcycling Art
Nairobi, Kenya 2016

Start: 09_19_2016

40 youngster and 10 teachers from 7 various slum-schools of Nairobi learned to transform “garbage” (old tiles, keys, bottletops, old magazines, old coins and maps, etc.) into pieces of modern art.

This sustainable process is called: **Upcycling**

Upcycling,
englisch: up (hoch), Abfallprodukte oder
(scheinbar) nutzlose Stoffe werden
in neuwertige Produkte umgewandelt.
Im Gegensatz zum Downcycling
kommt es bei dieser Form des Recyclings
zu einer stofflichen Aufwertung.

Die Wiederverwertung
von bereits vorhandenem Material reduziert die
Neuproduktion von Rohmaterialien.
